AI Tutoring From m2r Education

Introduction

m2r Education are a UK based, **multi award winning company** offering bespoke services to the education sector.

Established in 2001, we have won numerous local, national and international business awards.

We are pleased to introduce you to **Medly**, an adaptive, AI powered exam revision solution and the **world's first** AI tutor for GCSE, IGCE, A Level and IB!

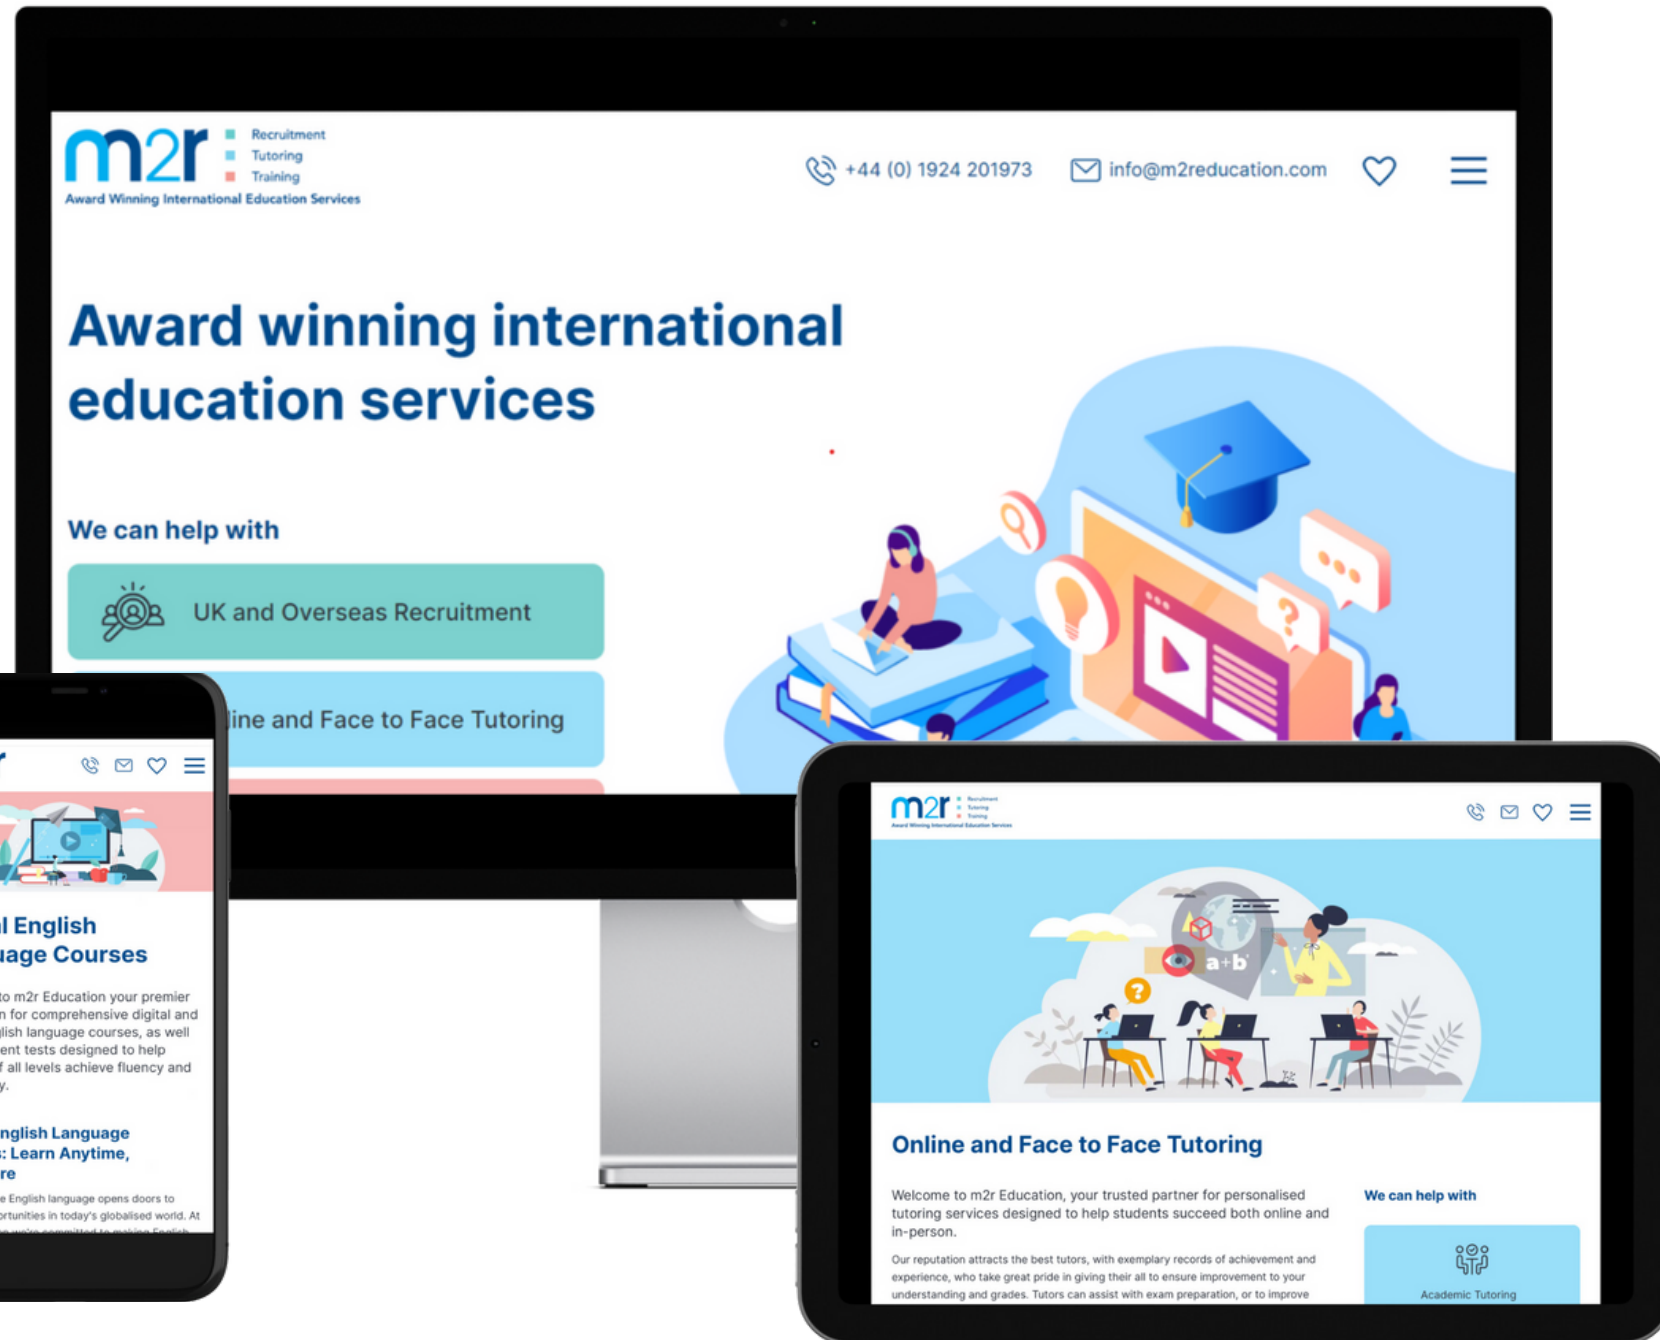

Boost grades with your own AI Tutor and Examiner for all major subjects!

Accessed via an app, students learn on the go, in short bitesize lessons. A **complete suite of exam revision papers** are also available via an online platform.

Medly teaches students like a **real human tutor** on the web. It's as if a tutor is watching over their screen as they work.

Our aim is for private tutoring to be inclusive, not exclusive.

AI Powered Tutoring & Exam Revision

Personalised Interaction with an AI Tutor

Imagine you are a student preparing for an exam. You want to learn a specific exam and curriculum content in an engaging way....

Via a partnership with **Medly AI**, we are able to offer the only AI tutor that's specific to the exam curriculum.

- Medly AI creates **personalised learning plans** for students.
- Medly AI teaches students **how to answer every question** to get full marks.
- Medly AI teaches students based on their weakest topics so they **feel confident** with every topic on the exam syllabus.
- Medly AI takes the student through each topic in the syllabus so that they **learn how to answer** every exam question to get full marks.
- Medly AI **marks work immediately** based on the exam mark scheme and provides feedback to help your students improve their answer.

- Access to **ALL** subjects across the app and online platform

Visit <https://www.medlyai.com/> to try for free and to purchase!
Don't forget to use the discount code!

Two Platforms, One Subscription

The image displays the Medly AI interface across four devices, illustrating its multi-platform compatibility. The smartphone screen shows a 'Biology' topic with a progress bar (1 star, 6 stars, 3 hearts) and a map of topics like 'Obtaining and using metals' and 'Reactivity of metals'. The tablet screen shows a question about potassium and sodium in the reactivity series, with a progress bar (5/5) and a 'Check' button. The laptop screen shows a question about the internal anatomy of the human heart, with a diagram of the heart and a list of 4/4 marks. The desktop monitor shows the 'medly exams' login page for 'GCSE Biology PAPER 1', with fields for Centre Number, Candidate Number, Surname, Forename(s), and Candidate Signature, and a 'Time allowed: 1 h 45 min'.
